

FOOD PACKAGING

Orana offers comprehensive, cost effect and efficient solutions for dry and liquid food packaging and assembly to leading Australian and international food companies, importers and distributors.

Our capabilities and equipment:

- Packaging liquid food in glass, PET bottles, tins, drums and flagons
- Packaging hard and granulated food products
- ISO 9001, HACCP and Kosher accredited clean room facility, centrally located in Adelaide
- Automated filling line and capping machine, labelling machine for round and square bottle applications, and vertical form fill seal machine, semi-automated tin filling equipment
- Ability to handle high volume and short production runs, as well as custom requirements with current equipment where suitable

Services:

- Packaging of liquid foods such as oils and ciders
- Packaging of hard and granulated foods such as nuts, spices, pet food and confectioneries
- Semi-automated hand filling operations for specialised requirements

- Filling, capping, labelling and packaging consumable liquids in both round and square bottle formats
- Palletising and container loading service available on request
- On site distribution warehouse offering short term storage options
- Second pack services – label removal, relabelling, repacking, repalletising

We are able to establish long term relationships with customers because of our tailored solutions, faster reliable delivery and trustworthy customer service.
