

PALLET MANUFACTURING

Orana has been manufacturing timber pallets for both domestic and export markets for over 30 years, created to a high quality standard with Australian timber.

We supply pallets to leading Australian companies in a wide range of industries including construction suppliers, hardware and machinery, transport and logistics, food and wine, as well as import and export distribution businesses.

Over the years, we have established long term relationships with our customers by producing industry standard quality pallets, while providing exceptional customer service and ensuring we deliver on our commitments.

Our capabilities and equipment:

- Manufacturing standard or custom pallets tailored to customer specifications
- Industry standard pallet making machine
- AWPCS compliant heat treated export pallets
- Pallet stencilling of customer/business name
- Use of 100% Australian timber sourced from certified plantations which follow sustainable timber farming practices

Pallet range:

- Australian standard domestic pallets
- ISPM15 standard export timber pallets
- Custom made pallets
