

SECURE DOCUMENT DESTRUCTION

It is critical to destroy confidential documents to protect yourself and your business in today's ever-evolving world.

Orana provides an easy and cost-effective secure document destruction services to business and government. All documents for disposal are destroyed and recycled with high security clearance to ensure confidentiality from the time they leave your site until they go through the process of secure document destruction.

What we can do:

- Supply of secure locked document destruction bin
- Scheduled collections of secured bins (pickup and replacement)
- Whole chain of custody and tracking
- Proof of destruction
- Security vetted personnel with police clearances

An industrial cross-cutting shredding machine is used to effectively destroy all documents and properly protect your valuable information.

All shredded paper is disposed of responsibly through specialist recycling companies to minimise environmental impact.

Our team is trained in secure handling and shredding of documents, while also maintaining the highest level of confidentiality.
